

BERTONERI

HANDCRAFTED FOR TODAY'S LIVING
A FIREPLACE FOR YOUR HOME

Welcome to the Bertoneri Collection of Stone and Marble Surrounds.

Over two hundred years ago, Giovanni Bertoneri began work on his first fireplace. Since then, the Bertoneri name has been synonymous with the finest fireplaces. However, the real craft of making a fireplace begins with nature. Over the millennia, natural processes have created and compressed grains of sand and minerals to produce beautiful marbles, granites and limestones. At Bertoneri, we do the easy bit, carefully crafting and shaping what nature has created into a beautiful fireplace for your home.

Our collection of stone and marble fireplaces features the latest in contemporary design as well as traditional and classical favorites.

***All heights given are included with 3" standard hearth

Our Stone

Marfil Stone

Marfil Stone is a manufactured stone which has become very popular due to its uniformity of appearance and its beautiful finish, a mix of a two delicate creams expertly blended together

Spanish Cream Marfil

Our flagship stone. A beautiful natural marble with subtle veining in a variety of hues. One of the most sought after marbles in the world. Spanish Cream Marfil has a proud heritage and can be found throughout the world wherever opulence and sophistication are desired.

Black Granite

Black Granite is a homogeneous stone featuring no veining, yet with a subtle crystalline finish. When polished it takes on a wonderful shine and patina and has been used for thousands of years as a decorative and structural stone.

Ivory Pearl

Ivory Pearl is another manufactured stone which has been growing in popularity over the last few years, due to its delicate veining which offsets its beautifully finished ivory pearl colouring.

Bianco Marfil

This stone is a combination of the best that granite and limestone can offer. In appearance it polishes up to a uniform white finish, reminiscent of limestone, but has the toughness and ease of care that granite can offer. This stone is a perfect match for both contemporary and traditional designs.
