When you purchase a Valor fire you do so with the utmost confidence that it will serve you for many years to come. Such is the confidence in our products, that we are able to offer an exclusive THREE-YEAR GUARANTEE when your fire is purchased from one of our network of Valor Centres – providing the fire is serviced annually in accordance with Valor guidelines. This gives you an additional two year’s peace of mind over and above our standard guarantee, so you can relax in the knowledge that your fire has been recommended, supplied and installed by professionals to the highest standards.

## Be Inspired With Valor

Discover ‘Inspire’, a new collection of landscape gas fires from Valor.

Combining design inspiration with innovative performance features and easy servicing, Inspire delivers the perfect package for your home.

Choose from a wide range of design choices, each delivering quality, flexibility and all the atmosphere of a standout feature fire in your living room. All this from a brand you can trust, with a proud heritage and more than 60 years of experience manufacturing home heating solutions.

### Design flexibility

You can choose from a long list of designs, with 500, 600 or 800 models each available with a choice of controls, liners, log, trim effect and suites.

This includes two fuel beds, five ceramic back liners, two trim designs (each in a choice of four colours) and a choice of two suites for each model. Inspire gas fires from Valor can even be purchased with a frameless kit which requires no trim.

### Flexible installation

The Inspire collection can be wall-mounted with a frameless kit or choice of trim, or incorporated within a choice of surround suites, each made from natural Portuguese limestone, to create a stunning focal point in the home.

The fires are glass fronted and you can choose the fuel bed and ceramic back liner, giving you exactly the design you want to suit your living room. Even servicing is made easy, thanks to the way in which the whole burner assembly slides out.

### Ask the experts

We take great care to ensure our products are designed and manufactured to the highest standards and we want our fires to be sold and installed in the same way to provide the best possible experience for customers.

The Valor Inspire collection is available exclusively from the Valor Centre network, which includes experienced fire and fireplace retailers nationwide. Each retailer has been carefully selected to ensure they can provide you with expert knowledge,

### At the heart of your home

For centuries, a focal point fire has been at the heart of the British home, and nothing can beat the warmth, realism and control of a gas fire. The Inspire collection from Valor lets you bring the unbeatable atmosphere of a gas fire into your home, with a far greater range of output control than ever before thanks to Valor’s unique duplex burner, Duo, which is available on the 600 & 800 models. The 500 models are fitted with a Simplex burner, which offers a realistic flame picture and glow.

The Duo burner can be reduced down to 34% of output when the full flame is not required, typically a conventional (single) burner can be turned down to 60% of output – giving complete control even when the full flame is not required.

### State-of-the-art controls

For the ultimate in convenience, all fires in the Valor Inspire collection also come with a choice of two controls.

Choose Valor’s unique Fireslide control, a first of its kind for premium gas fires, which lets you easily adjust the flame output with a simple slide control.

Or you can opt for an advanced remote control, offering a host of features from the comfort of the armchair including on/off, output control and a host of operation modes including thermostatic, eco and programme modes.

### Highest standards guaranteed

All Valor fires are designed, manufactured and tested to the highest standards, to ensure the quality and safety of the products we sell. As part of the multi national Glen Dimplex Group, our products are developed in state-of-the-art research and design facilities, incorporating the very latest in home heating technologies.

As a result, you can have confidence that you are buying from a leading brand that you can trust – backed by more than 60 years of proud history.

advice and assistance on all aspects of the fire, including installation, to make sure you choose the right solution for your home. Valor Centre retailers can also offer an exclusive three-year guarantee on Valor products – not available from any other retailer.

**Visit [www.valor.co.uk/inspire](http://www.valor.co.uk/inspire) to find your nearest Valor Centre showroom, where you can see our fires in action and discuss your individual requirements.**

# Inspire 500

## Product features and benefits

- Max heat output 4.0kW
- Min heat output 1.8kW
- 80% efficiency
- Fireslide or remote control
- Simplex burner technology
- Can be fitted into wall or as part of suite
- Radiant & convected heat
- Choice of liner options
- Choice of trim options
- Natural gas
- Suitable for brick chimneys
- Frameless kit available
- Realistic flame picture
- Glass fronted model

# Chimney Options

Look at the pictures and decide which one best matches the chimney at your home. Please note that the Inspire Collection is only suitable for Brick Chimneys (BC).

**Brick Chimney (BC)**

The classic brick built chimney is suitable for all gas fires.

**Pre-fabricated Flue (PF)**

Pre-fabricated chimneys are suitable for most gas fires dependent on flue depth and diameter.

**Pre-cast Flue (PCF)**

Pre-cast flues are found in most modern homes and are suitable for slimline gas fires.

**No Chimney (NC)**

No chimney or flue? Balanced flue gas fires are suitable in this case.

## Fireplace Openings

Model	Height		Width		Depth	
	Min	Max	Min	Max	Min	Max
Inspire 500 Fireslide	556mm	566mm	500mm	535mm	315mm	–

Inspire 800 Remote	450mm	460mm	800mm	835mm	340mm	–

Note: Please consult the installation instructions before commencing any building work.

## Duo burner (600 & 800 models only)

The Inspire ‘Duo’ burner is divided into three sections which allows the front burner to be lit on low (setting 1) or on medium (setting 2) and also enables both burners to be on full (setting 3).

Duo Burner Setting 1 – Low

Duo Burner Setting 2 – Medium

Duo Burner Setting 3 – High

## High Efficiency

Valor’s dedicated research and development facility combines the latest technology with innovative techniques to ensure our products offer the highest possible efficiency. This not only helps consumers meet energy targets, but also keeps running costs to a minimum.

## High Efficiency – Gas

Gas fires are a great way to reduce the overall fuel usage in the home. They offer an effective way of heating the space you are living in which allows the central heating to be turned down or even off. Gas fires deliver heat in two modes, radiant and convection. They do not need electricity so you have a secure option for heat in power outages or boiler breakdowns.

# Technical Chart

# Surround Options

The surrounds featured in this brochure are made from beautiful materials naturally formed over millions of years, they have very individual features and characteristics encapsulated within them. From inside the raging furnaces of a cooling world there are the close up flowing swirls and veins of the molten rocks and from the crashing shores of oceans long ago, there are the shells and fossils nestled among the silt

and shingle of ebbing tides. Your fireplace should be protected from staining. In the event of an accident soak up any spillage immediately. Where staining has occurred, use a specialist stone cleaning and resealing kit, following the instructions given by Valor. Before cleaning, turn off the fire and allow to cool beforehand. Dust down regularly with a soft clean brush and occasionally wipe over with a damp cloth.

## Remote Control

The remote control for the Inspire Collection is a premium control offering a host of features from the comfort of the armchair including on/off, flame settings & output control and a host of operation modes including thermostatic, eco and programme modes. It also offers a child proof mode for extra piece of mind. This remote control also comes supplied with a wall-bracket so the remote can always be within reach.

## Terms & Conditions

Valor's policy is one of continual improvement and development. The right to change specification without prior notice is reserved, therefore the actual product may change and so the image shown may not be an exact representation. All images within the brochure were correct at the time of print. Reproduction of colours is as accurate as the photographic processes will allow.

Though accurate at the time of printing, this brochure is not intended to replace the installation manual which provides more detailed information. The statutory rights of the consumer are not affected. No liability will be accepted for problems caused by poor installation or misuse of the product.

All our products carry the CE Mark complying with European safety standards.

Our products are made in accordance with Quality Management System Standard ISO 9001.
